

how to decide.....

the app to help through planning and building processes

Präsentation Projektidee

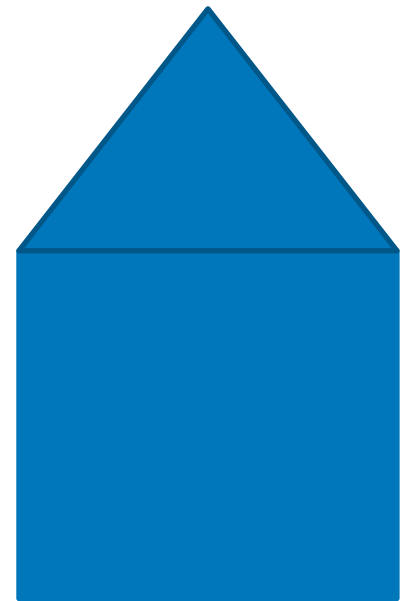

Veranstaltung IraSME Aachen 2018

Prof. Dipl.- Ing. M.A. Stefan Meyer-Miethke
von
Bmstr. DI (FH) Kevin Zahourek

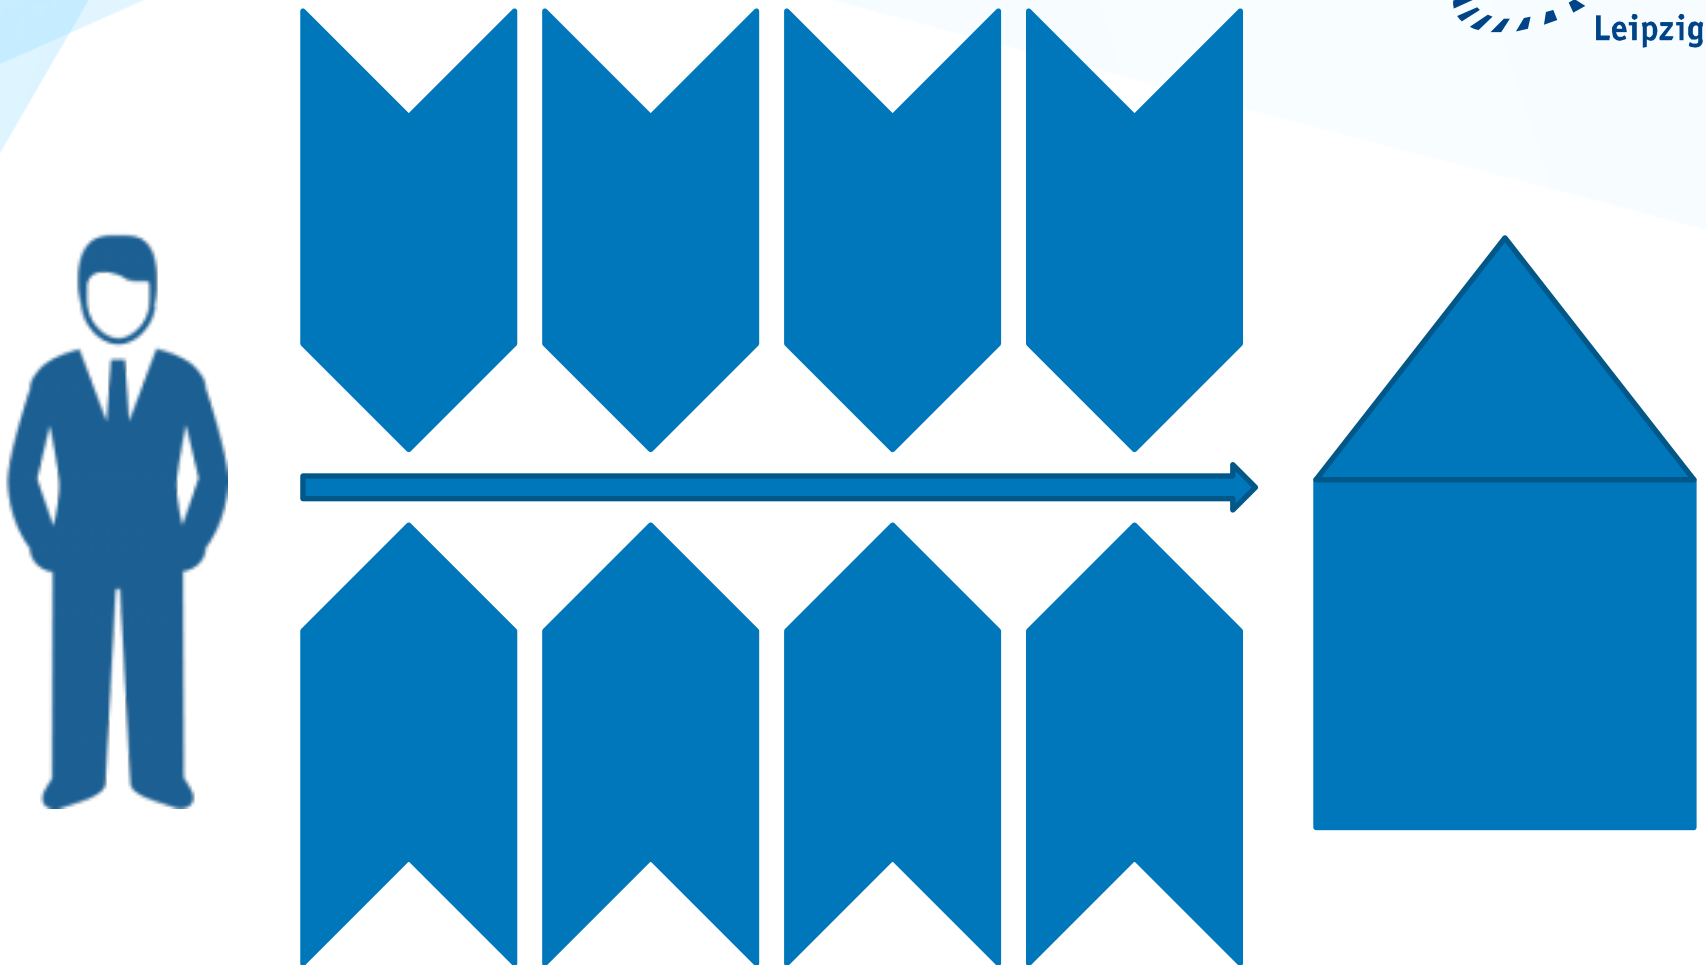

**client
builder**

a hard way to get through

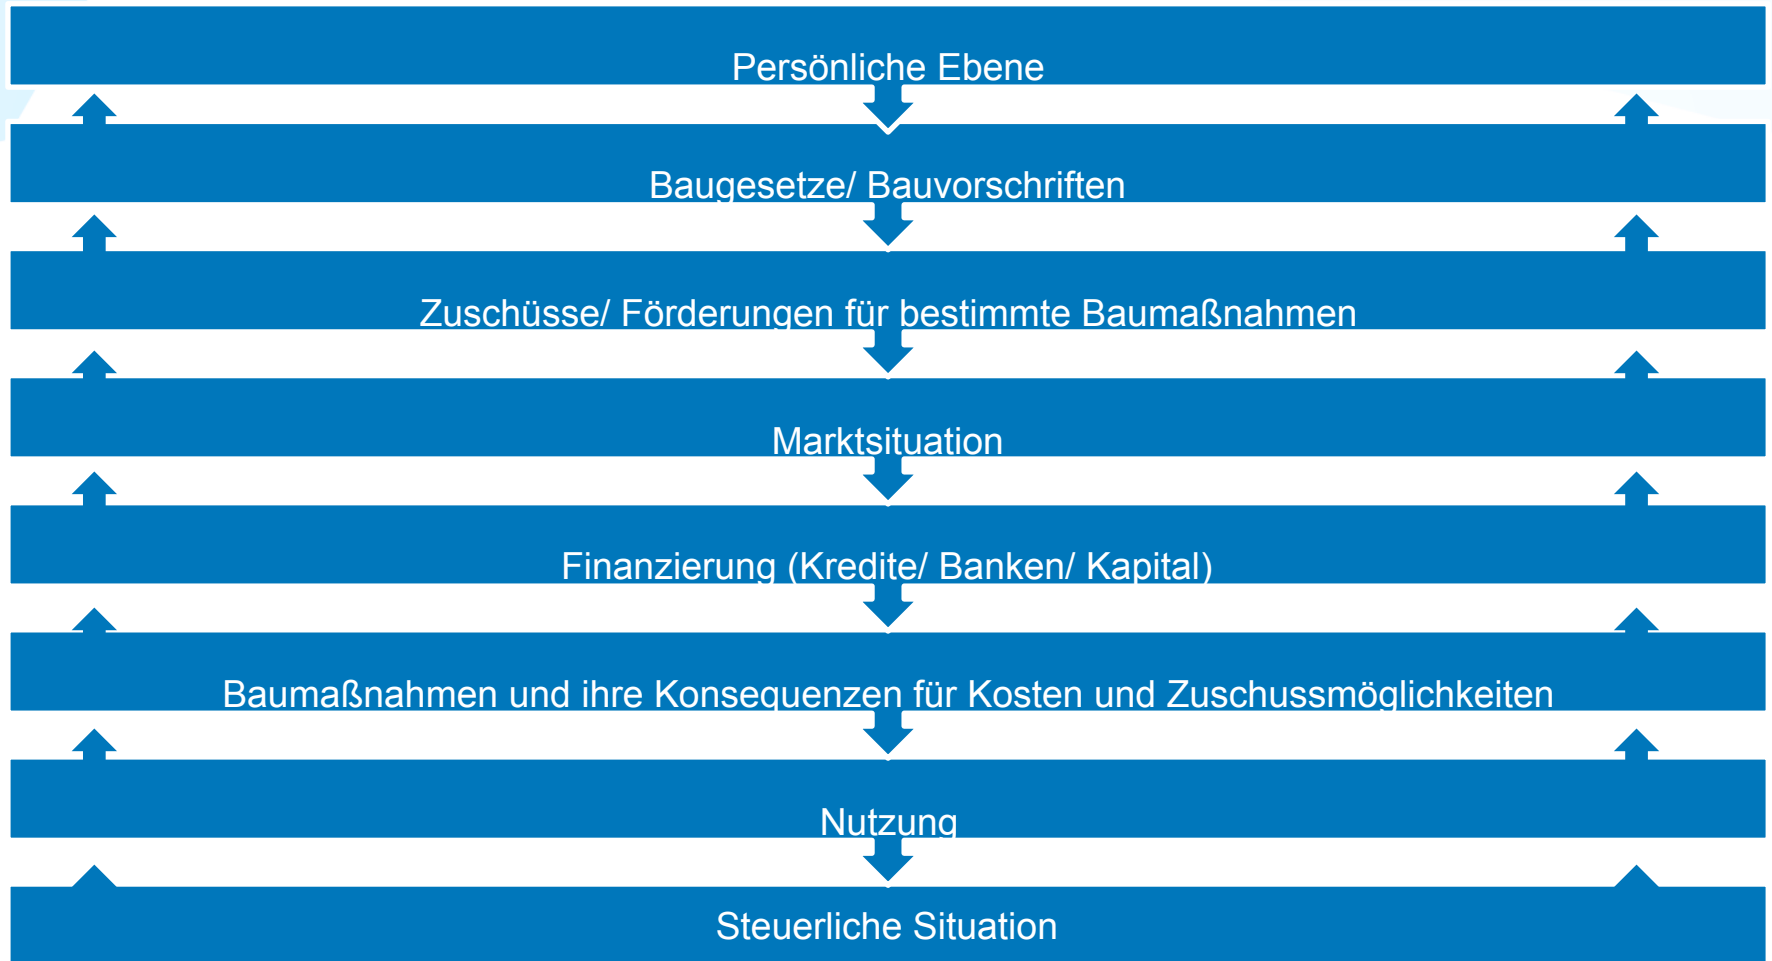

project

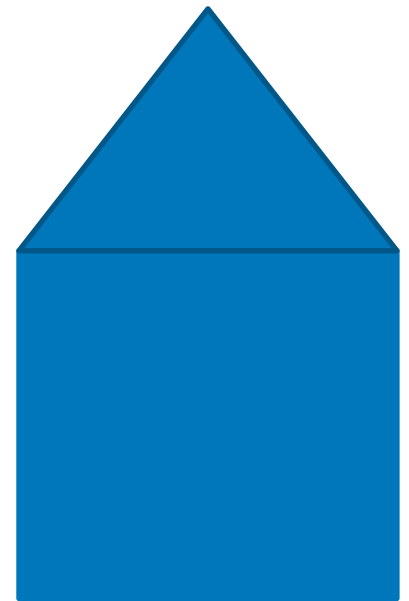

so many decisions....

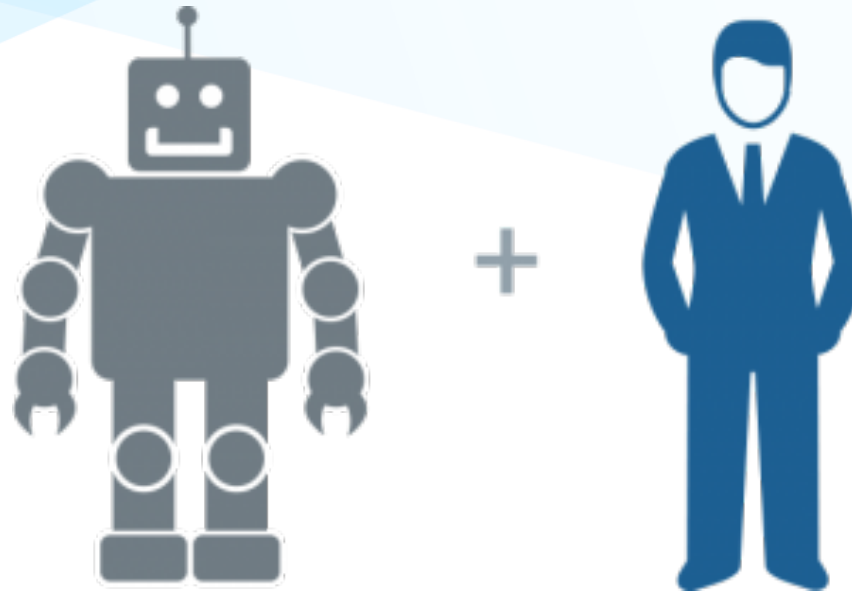

....so many decisions to do.....
in different levels and disciplines
and they all hang together and influence each other

**i need a computer programm
to help me through.....**

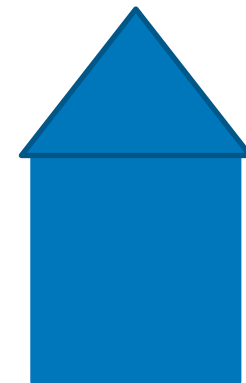

**we are looking for a partner
to develop such a program....**

???

what we are looking for:

research and developing partner:

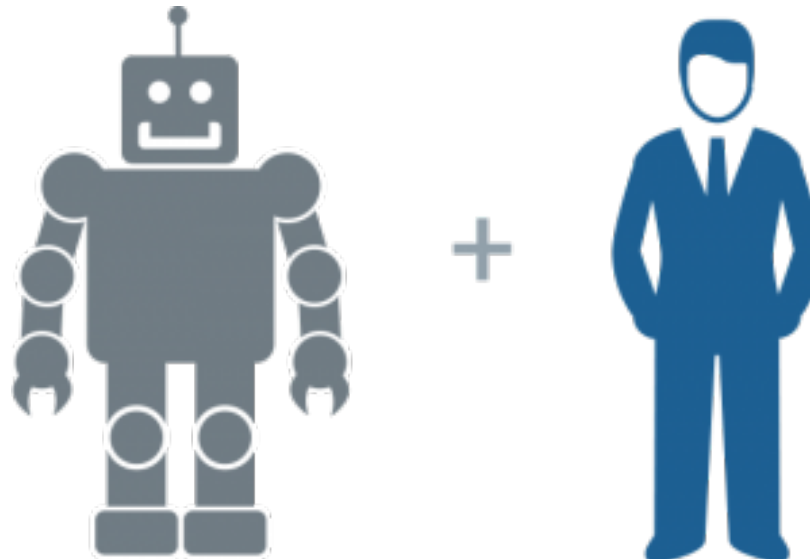

companies to

develop the strategy

to get the software

to build the app

to do the marketing

what we offer:

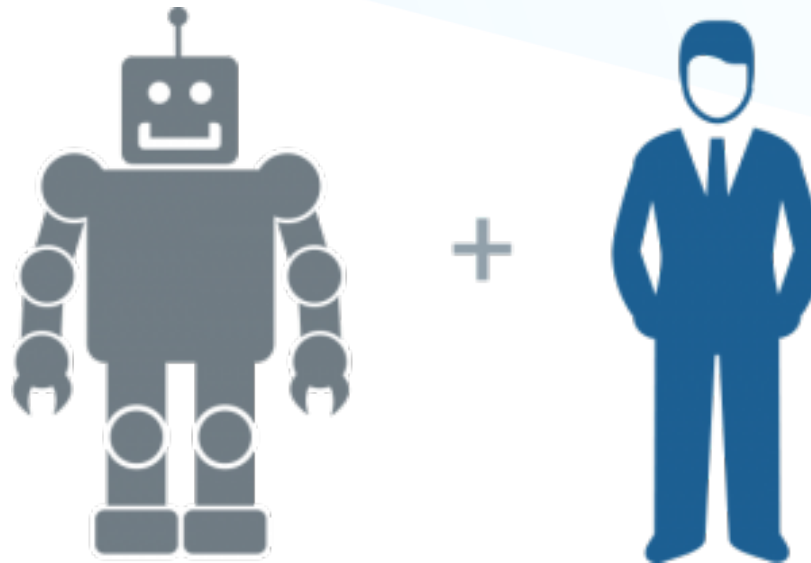

university of applied sciences leipzig

analysis of building processes in many specialized institutes

experiences in many different research projects

planning & building

architecture & engineering

our strategy:

**apply together with a partner
for a two years research program
international/national**

**IGF / Cornet
AiF gmbh / ZIM**

thank you for your interest:
